## PROFILES

5" and 6" aluminum eavestrough

Kaycan's Aluminum Rain Carrying System provides both a professional, complementary finish and superior protection, perfect for any home's exterior. The Performance Rainware system is easy to install and maintains a freshly painted look year-after-year with a durable, corrosion-resistant finish that never needs painting. In-house aluminum coil coating ensures exceptional quality control through chrome-free processes, water-conservation practices, and waste minimization. Available in 5" and 6" gutter profiles with ProGuard II leaf protection and four downspout configurations: 2"x3", 2½" square, 3"x3", and 3"x4".

## Key Features

- Durable, corrosion-resistant finish never needs painting
- Rich selection of decorative colours and complementary trims
- Chrome-free processes, water-conservation practices, waste minimization
- In-house aluminum coil coating ensures exceptional quality control
- Complete color-coordinated range of accessories
- Do-it Yourself, easy to install
