PROFILES

Double 4" Horizontal /
Double 4.5" Dutchlap /
Board & Batten

Mitten Sentry 44 Series is the best-selling vinyl siding system in the Mitten catalogue — and for straightforward reasons. Thirty-eight colours across three primary profiles, heavy 0.044"–0.050" gauge construction, and a tested 180 mph wind resistance rating make it a reliable first call on residential exteriors across Ontario and beyond. The cedar-grain texture gives it enough surface depth to hold paint touch-ups naturally and to photograph well from the street.

The Rustic colour palette within the Sentry 44 lineup includes an enhanced Fade Promise — Delta E "d1 over five years — a measurable threshold rather than a vague warranty clause. That kind of specificity is worth noting on quotes where homeowners ask about long-term finish performance. CCMC accepted and backed by Mitten's full lifetime warranty, Sentry 44 is the standard workhorse that handles the bulk of residential siding work without complication.

Key Features

- 0.044"–0.050" heavy gauge
