PROFILES
Sheet

Pro Materials Acoustic Felt Underlayment is a black felt sheet sized at 95" x 48" x 0.35", designed for use behind WPC and wood veneer wall panels. It is well known for noise reduction, making it a practical choice for residential buildings and indoor recreational areas where sound insulation matters. It also functions as a moisture barrier, preventing water infiltration and damage to underlying structures. By blocking moisture, it helps preserve the structural integrity and extend the service life of WPC components.

Key Features

- Noise reduction
- Prevents water infiltration
- Extends longevity of WPC components
- 0.35" thickness
- Moisture barrier
- Preserves structural integrity
- 95" x 48" sheet
- Residential buildings and indoor recreational areas
