PRO MATERIALS

# Pro Materials SmartPave Eco Green Tiles

SKU: PM-0020

## PROFILES

### Grass Paver Tile

Pro Materials SmartPave Eco Green Tiles are a sustainable paving solution for urban spaces, enabling effective parking without compromising natural landscapes. Made from eco-friendly, durable materials, they support vehicles while allowing water to permeate and minimize runoff, sustaining vegetation growth. These tiles also help address urban heat island challenges and improve air quality.

#### Key Features

- Sustainable, eco-friendly and durable materials
- Permeable — minimizes runoff and sustains vegetation growth
- Improves air quality
- UV resistant
- Slip resistant
- Supports vehicle loads
- Addresses urban heat island challenges
- Supports ecological diversity
- Frost and temperature fluctuation resistant
- Minimal maintenance

## Profiles & Specifications

### Eco Green Tile

A sustainable and innovative solution for urban spaces, enabling effective parking without compromising natural landscapes. Manufactured from eco-friendly, durable materials that support vehicles while permitting water permeability to minimize runoff and sustain vegetation growth. Helps address urban heat island challenges, improve air quality, and support ecological diversity.

UV Resistance	Yes
Frost Resistance	Yes
Temperature Fluctuation	Resistant
Slip Resistance	Yes
Maintenance	Minimal
Vehicle Load Support	Yes
Urban Heat Reduction	Yes
Biodiversity	Encourages
Water Permeability	Yes — minimizes runoff, sustains vegetation growth
Air Quality	Improves

## Compatible Accessories

### Grass Seed Blends

Seed blends for filling the tile openings with grass

### Soil Stabilizers

Stabilizers to prepare and support the sub-base

### Edge Restraints & Borders

Perimeter restraints to secure the tile field edges

### Decorative Borders & Inlays

Decorative border and inlay options for finishing

## Ready to order?
