Pro Materials SmartPave Pour-In-Place

SKU: PM-0019

PROFILES

Pour-In-Place Surface

Pro Materials SmartPave Pour-In-Place is a cutting-edge paving solution that creates seamless, customized surfaces by pouring a special mixture directly on-site. The result is a durable, flexible surface that conforms to various shapes and contours. Resistant to cracking, mold, weeds, UV exposure, and frost — with minimal ongoing maintenance.

Key Features

- Seamless, customized pour-in-place surface
- Slip resistant
- UV-stable
- Mold resistant
- Low maintenance
- Poured on-site — conforms to various shapes and contours
- Resistant to cracking and spalling
- Frost resistant
- Weed resistant

Profiles & Specifications

SmartPave Pour-In-Place

A cutting-edge paving solution that allows for seamless, customized surfaces tailored to specific design needs. The technique involves pouring a special mixture directly on-site, resulting in a durable and flexible surface that can conform to various shapes and contours. Resistant to cracking, mold, and weeds for a long-lasting, low-maintenance finish. Slip resistant, UV-stable, and frost resistant.

Slip Resistance	Yes
Crack Resistance	Yes — resistant to cracking and spalling
