PROFILES
3-Strip Fluted

Pro Materials WPC Fluted Wall Panels (3 Strips) are co-extrusion wood plastic composite panels for interior and exterior cladding. The 3-strip fluted profile measures 141.73" x 8.07" x 0.98" and features an interlocking system that is quick and simple for both DIY and professional installers. Panels are waterproof, anti-termite, UV colour stable, and completely maintenance-free — no staining or painting ever required. Available in Charcoal, IPE, and Oak. Backed by a 20-Year Warranty.

WPC Fluted Wall Panel - 3-Strip Co-Extrusion

Strong, maintenance-free, durable outdoor WPC panels that are scratch, dent, and damage resistant — a practical alternative to timber. The 3-strip co-extrusion fluted profile works for both interior and exterior surface and façade applications. Panels never need staining or painting, are moisture resistant for use in any wet location, and won't deteriorate. Interlocking design makes installation quick and straightforward for both DIY and professional installers.
