PROFILES

4-Strip Fluted

Pro Materials WPC Fluted Wall Panels (4 Strips) are strong, maintenance-free co-extrusion wood plastic composite panels for interior and exterior cladding. The 4-strip fluted profile comes in two lengths — 114" and 144" — both 8.6" wide by 1" thick. Scratch, dent, and damage resistant, with an interlocking system that is quick and simple for both DIY and professional installers. Panels are waterproof, anti-termite, UV colour stable, and never need staining or painting. Available in 5 colours: IPE, Ashy Gray, Light Walnut, Charcoal, and Gray. 20-Year Warranty.

Profiles & Specifications

WPCE86114-114

WPC 4-Strip Fluted Panel — 114" Length

Strong, maintenance-free, durable co-extrusion WPC panels that are scratch, dent, and damage resistant — a practical alternative to timber. The 4-strip fluted profile works for both interior and exterior surface and façade applications. Panels never need staining or painting, are moisture resistant, and won't deteriorate over time.
