5-Strip Fluted

Pro Materials WPC Fluted Wall Panels (5 Strips) are strong, maintenance-free co-extrusion wood plastic composite panels for interior and exterior cladding. The 5-strip fluted profile measures 144" x 8.6" x 1". Scratch, dent, and damage resistant, with an interlocking system that is quick and simple for both DIY and professional installers. Panels are waterproof, anti-termite, UV colour stable, and never need staining or painting. Available in Gray and Maple. Backed by a 20-Year Warranty.

WPC Fluted Wall Panel — 5-Strip Co-Extrusion

Strong, maintenance-free, durable outdoor WPC panels that are scratch, dent, and damage resistant — a practical alternative to timber. The 5-strip fluted co-extrusion profile suits both interior and exterior surface and façade applications. Panels never need staining or painting, are moisture resistant for use in any wet location, and won't deteriorate. The interlocking design makes installation quick and simple for both DIY and professional installers.
